

CRYSTALLINE™ COFFEE BOWLS

Not Quite Bulletproof...but getting there.

Stronger, clearer, more comfortable, and leak-proof. It's easier-to-handle and a breeze to clean. The new Curtis Crystalline Glass Bowl.

Made in Germany by Schott, these new Curtis Glass Bowls are produced from a highly-polished mold, superior materials and finished with a proprietary annealing process. This results in a superior tempered glass bowl with a solid, consistent wall thickness throughout the entire sphere. The Curtis Crystalline is incredibly break-resistant and sparkling clear.

The bowl features a new sloped handle design and thumb "rest", allowing any size hand to obtain a firm, yet gentle grip. The handle's angle and position has been optimized for easy pouring, regardless of the bowl's volume. And, a little extra room has been added to keep knuckles away from heat.

Use the Curtis Crystalline once, and you'll immediately see why it is the new industry standard.

SPECIFICATIONS	Dimensions (H x W x D)	Shipping Weight (lbs)	Cube (cu. ft.)
3 PACK	7.75" x 21.25" x 6.75"	4	0.64
6 PACK	7.75" x 23" x 15.25"	8	1.57
24 PACK	15" x 28.5" x 21.5"	26	5.26

FEATURES AT A GLANCE

- **Impact Resistant** – Independent testing labs prove Curtis superior. On average proving to be 25% stronger. Dimensionally accurate, lab-quality Schott German glass.

- **No "O" Rings or Glue Sealants** – Patented multi-tooth, non-removable conical interlock mechanism with vinyl sealing gaskets. This provides for long-term performance without the need for sealants or glues to attach the bowl to the handle or degrade and leach into product.
- **Robust Polypropylene Handles** – Impact resistant, break proof, chemical resistant and dishwasher safe. Extended handle design and ergonomic standoff provide protection from hot glass during gripping, serving tilt, replacement and un-gripping.
- **Baked-On Graphics** – Logos won't chip, peel or flake. Provides longer service life with "like-new" look.
- **Flavor labels, timer clips available.**

Get a handle on your cleaning needs with the Curtis Java Jug Brush!

Designed for glass decanters and airpots, these handy brushes feature non-abrasive sponge fingers that clean and polish surfaces safely. Harsh wire brushes and those with metal parts can scratch and damage surfaces, dulling their luster and appearance. The gentle Java Jug Brush ensures smooth, spotless results for superior coffee presentation.

Easily Handle Airpot Depth

The Java Jug Brush is available in two models. JB-1 features a flexible extra long 13" handle which allows easy reach into taller airpots.

Features

- Professional foodservice brush is durably constructed to keep up with daily cleaning requirements.
- Standard and Extra Long models allow easy reach into interiors of decanters and larger airpots.
- Soft, but sturdy sponge fingers provide thorough, non-abrasive cleansing.
- No wire centers or metal parts which can cause scratching, scoring or deep cuts that can weaken or break glass bowls and liners.
- Lightweight design promotes cleaning efficiency.
- Keeps decanters spotless and sparkling for superior coffee presentation.
